NOTE TO AUTHORS

Contributions should be sent *only* to the Editor, Professor L. Rosenfeld, NORDITA, Blegdamsvej 17, DK-2100 Copenhagen Ø, Denmark. They should be accompanied by a covering letter, indicating, in case of joint authorship, to whom further correspondence, proofs, etc. should be addressed. Authors should take care that their contributions are written in good English, French or German: "broken English" is not acceptable.

Manuscripts should be prepared in accordance with the rules and conventions described in the *Instructions to Contributors* (see Nucl. Phys. 26 (1961) 697 and page 3 of cover). Experimental papers for Nuclear Physics A must contain an index of *keywords* (see Nucl. Phys. 68 (1965) 1). Copies of these instructions are available on request from the Editor or from North-Holland Publishing Company, P.O. Box 3489, Amsterdam.

All papers are subject to refereeing. "Letter-type" contributions and unnecessarily long papers are unacceptable. Authors should make every effort to achieve the utmost concision compatible with clarity. They should make a careful survey of the literature to ensure that papers do not duplicate previous work and that relevant existing knowledge has been taken into account. It should be realised that the criteria for refereeing are very high. *At present only 50% of the papers submitted are immediately acceptable.*

The Editor and Publisher aim at the following *time schedule*: within one week of submission the Author should have received acknowledgement of receipt of his manuscript. Within two months (normally within one month) he should have had notification of acceptance or rejection, or a request for revision. After receipt of an acceptance card, he should receive proofs within six weeks. Finally, six weeks after returning the corrected proofs, the paper should be published. If this schedule is not adhered to, Authors are requested to notify the Editor and/or the Publisher.

NUCLEAR PHYSICS A is published in weekly issues. The subscription price per volume is Hfl. 80.00; $22.00. Postfree.

NUCLEAR PHYSICS B is published twice per month. The subscription price per volume is Hfl. 80.00; $22.00. Postfree. Combined subscription to both section A and B Hfl. 65.00; $18.00. Postfree. Back volumes Hfl. 80.00; $22.00 per volume.

SUBSCRIPTIONS should be sent to the Publishers, NORTH-HOLLAND PUBLISHING COMPANY, P.O. Box 3489, Amsterdam, or to any subscription-agent.

CLAIMS FOR MISSING NUMBERS should be made within two months, following the date of publication. The Publishers expect to supply missing numbers free only when losses have been sustained in transit and when stock will permit.

BOOKS FOR REVIEW should be sent to Professor Rosenfeld.

Scope:

REPORTS ON MATHEMATICAL PHYSICS publishes papers on theoretical physics which use modern mathematical methods (axiomatic and algebraic methods, information theory, etc.) as well as papers in mathematics which refer to contemporary physics.
All contributions describe original work.

During the past few years the number of published papers within this scope has grown steadily and it is to be expected that this relatively new scientific discipline on the borderline between theoretical physics and mathematics, will be of increasing interest to scientists all over the world. The journal has the support of influential and widely-known scientific centres in Poland, the Sovjet Union and elsewhere, and it is believed that this new international publication will be successful and effective.

Note to authors:

Manuscripts submitted for publication in the journal should be addressed to the Editor-in-Chief:
R.S. INGARDEN, Institute of Physics, N. Copernicus University, Toruń, Poland.
